

## 4 simple steps to a whole new store

### Step 1 Store measurements

This guide will ensure you provide us with all the information we need. If you need any further help or advice, or to arrange a visit, call our Special Orders Team on 0800 45 11 22. Carefully fill in the measurements below, making a note of all the elements that make up your store - then draw up the layout on the grid on page 2.

#### Measure the size of your room

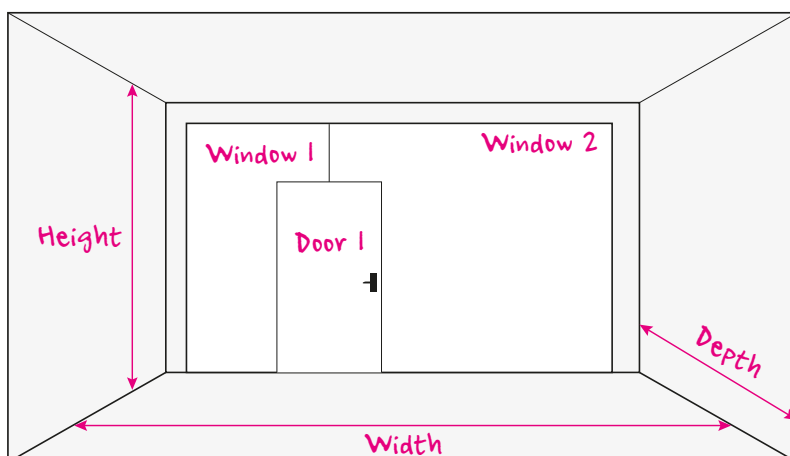

Width (W)	M
Depth (D)	M
Ceiling height	M

#### Measure the size of your windows

First window width	M
First window height	M
Second window height	M
Second window width	M

#### Measure the size of your doors

First door width	M
Second door width	M
Third door width	M

#### Take a note of any of the following :

- ☐ Power sockets (including any in the floor)
- ☐ Light switches and wall light fittings
- ☐ Radiators or heaters
- ☐ Air-conditioning controls or units
- ☐ Alarm systems or control pads
- ☐ Anything else that can't be moved (pillars, screens etc.)

Don't forget to map the direction of opening doors

### Step 2 Choose your fittings

If you're not sure where to start we'll come up with some ideas for you based on what you tell us about your business.

### Step 3 We create your FREE 3D design

One of our team will recreate your store on screen and work with you to develop the perfect layout and design. At the end of it you'll receive a complete list of the required components along with the total cost.

### Step 4 Save money - refit your store the DIY way

Our systems are designed to be installed by anyone with good DIY skills.

Tell us about your store :
